SITUATION SUMMARY

SOC Activation for California Wildfires

- The State Operations Center (SOC) is activated at Level 2 from 0600-2000 hours due to the wildfires burning throughout California.
- The Coastal REOC is activated at Level 1.
- The Inland REOC is activated at Level 1.

Cal EOC Incident – 2014 Drought

- SOC / Inland REOC remains activated in support of 2014 Drought

Weather of Concern

- A combination of strong winds, low relative humidities, and warm temperatures will result in critical fire weather conditions from this evening until Monday morning for portions of Del Norte, Humboldt, and Siskiyou Counties.
- A hot air mass will continue through this weekend as high pressure centered over the Four Corners Region remains in place. Above-normal temperatures will occur with near-record heat expected in many locations and the hottest conditions will occur today for portions of southern California.
- High pressure over the desert southwest will lift north bringing a return of hot temperatures starting today and lasting until Wednesday. Humidity values will be quite low through much of the coming week, even at night on the mid-slopes and ridges.

WEATHER

WEATHER SYNOPSIS BY REGION:

NORTHERN CALIFORNIA

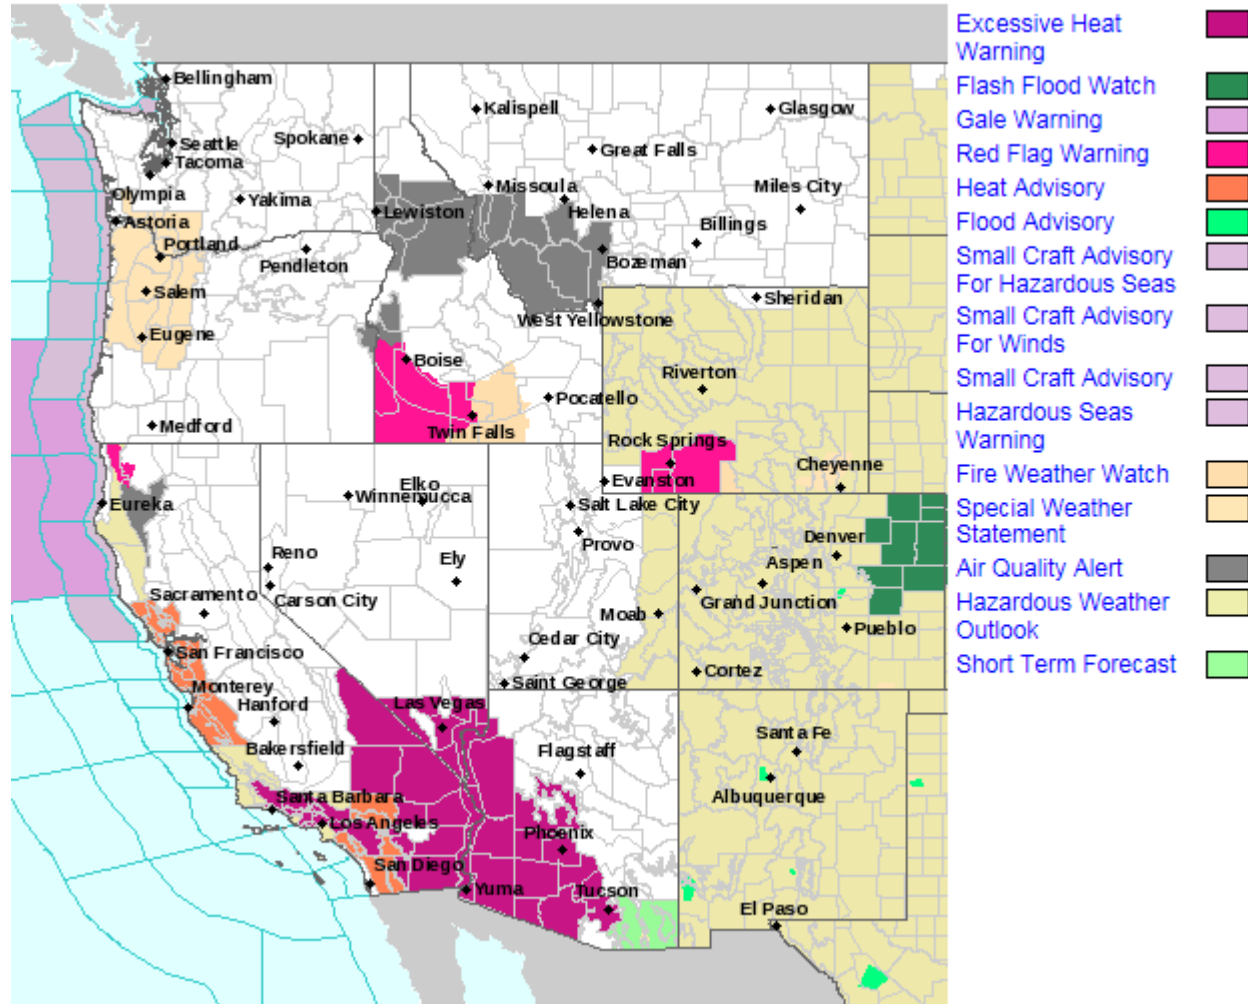

High pressure over the desert southwest is building into California. The warming and drying trend that began yesterday in northern California will continue through the early part of the upcoming week. At the surface, a north to east downslope wind pattern will occur during nights and mornings and enhance the warm and dry conditions in the Sacramento Valley and surrounding foothills. These winds will reach speeds of 8-18 mph with gusts to 25-30 mph in wind-prone areas through midday today then diminish this afternoon. This pattern will continue at lighter speeds through early Tuesday and resume again starting Thursday. Humidity will be in the single digits in many inland areas, with poor overnight relative humidity recovery. Temperatures will climb to 5-10 degrees above normal for the next few days then cool to 2-4 degrees above normal Tuesday through Thursday as the high weakens. Overnight relative humidity recovery will improve midweek. At this time, a high pressure ridge is expected to build back over the area beginning Friday. Temperatures will climb and relative humidity will drop back to about what we expect in the next couple of days.

SOUTHERN CALIFORNIA

Record heat will continue over much of the region today as strong high pressure moves overhead from the Desert Southwest. Maximum temperatures will remain in mid 80s to mid 90s across the mountains with upper 90s to 110 degrees in the valleys. Significant cooling will occur across the coast and coastal valleys Monday as high pressure starts to weaken and strong onshore flow develops. Elsewhere, there will be a gradual cooling trend through Wednesday. Near to a little below normal temperatures will occur Thursday and Friday as a trough moves inland across the Pacific Northwest. Westerly winds of 15 to 25 mph with gusts to 40 mph will surface across the desert passes Monday through Friday night. Minimum relative humidity will be mainly in the teens above and inland from the marine layer through the end of this week. Low clouds and fog will move over most coastal locations tonight and then spread further inland each night through the end of the week as the marine layer slowly deepens.

CAL OES 2014 DROUGHT

Cal EOC Incident – 2014 Drought

- The SOC is activated in support of the Drought State of Emergency and continue to monitor the situation.
- The Governor issued Executive Order B-26-14 on 09/19/14, to streamline relief efforts for families with drinking water shortages due to drought, specifically through the California Disaster Assistance Act, to provide temporary water supplies to households without water for drinking and/or sanitation purposes.
- The Governor issued Executive Order B-29-15 on 04/01/15 which announced actions that will save water, increase enforcement to prevent wasteful water use, streamline the state's drought response and invest in new technologies to make California more drought resilient.
- CDAA 2014 Drought Fact Sheet and Frequently Asked Questions provided to Regions for reference and distribution.
- Cal OES Recovery continues to coordinate the Community Impacts Workgroup conference calls. Currently, the calls take place on alternating Wednesdays.
- Cal OES Recovery/Individual Assistance finalized an updated 2015 version of the drought brochure of programs and services for individuals, businesses, farmers, and ranchers. It has been put on the Governor's Drought webpage. State agencies may put the following link to the brochure on their webpage <http://ca.gov/drought/pdf/Drought-Assistance-Brochure-2015.pdf>
- Cal OES Regions (Inland, Coastal, Southern) collective OA drought call is facilitated by the SOC every Monday at 1100 hours.

CAL OES MISSIONS

Ongoing Cal OES Missions

- **2015-LAW-14579 08/01/15, 1220 hours:** Kern County Sheriff requested assistance in the search for a homicide suspect in the Kelso Creek area of Kern County. This has been a long, complex search involving several hundred personnel from Kern County. In addition, LA Sheriff has provided significant personnel and aircraft to the search. Additional personnel and/or equipment has been provided by Fresno County Sheriff, Tulare County Sheriff, San Bernardino County Sheriff, Orange County Sheriff, Stanislaus County Sheriff, Federal Bureau of Investigation, US Marshals Service, California National Guard, US Customs and Border Protection, Anaheim Police Department and the Governor's Office of Emergency Services. The search continues and additional resource requests are anticipated. See Cal OES's Web EOC entries for more details. **Update 08/12/15, 2146 hour.,** Suspect has been identified and name released to media. Searches continue with additional helicopter resources from CHP and Ventura County **Update 08/13/15, 0800:** Search continues with the addition of aviation assets from CHP and Ventura County. **Mission Ongoing**
- **2013-LAW-1563 07/23/15, 1225 hours:** Plumas County Sheriffs Office (PCSO) has requested Human Remains Detection K9 to search a specific site regarding a 30 year old cold case. LDO contacted K9 Coordinator who is currently securing K9 handlers from a team located out of Santa Clara County. PCSO has asked for two separate search dates to confirm any potential findings. Timeline for search efforts: August 1 - 6, 2015, Cal OES is currently working on securing these resources.
- **2015-LAW-14555 08/03/15, 0800 hours, Update 8/12/15:** Several of the fires within the complexes have been merged, with one fire, the Pelletreau (South Complex Fire), being moved into the Route Fire Complex and merged into the Johnson Fire. Windy conditions and overstretched fire resources has necessitated LE to assist with dynamic road closures lasting up to an hour or so. Trinity County Sheriffs Office is in the process of coordinating with the 5 Fire Complex Security Managers to capture thefts of fire equipment and fuel. Currently thefts of Diesel (approx. 200 gallons), New Batteries, New Fire Engine Tires (4) and a Water pump have been reported. The water pump was one of 42 that were ordered for the fire, Fire was only able to secure 17 of these pumps so the loss of this pump has exacerbated this situation. **Update 8/14/15:** Significant increase in fire activity, no new LE issues. **Update 8/15/15:** No new significant information or changes in operational needs to report. **Update 8/16/15:** [No new significant information or changes in operational needs to report.](#) **Mission Ongoing**

Mission:

We protect lives and property, build capabilities, and support our communities for a resilient California.

We achieve our mission by serving the public through effective collaboration in preparing for, protecting against, responding to, recovering from, and mitigating the impacts of all hazards and threats.
